SUMMARY

Front-End Developer with a Bachelor's in Information Technology and hands-on experience building responsive, user-friendly web applications with React.js, TypeScript, JavaScript, and Tailwind CSS. Experienced in integrating REST APIs, implementing token-based authentication and role-based access, building reusable UI components, and turning UI/UX designs into clean, performant interfaces. Also a part-time React & Vue.js Instructor who has taught 150+ students across 10 courses.

WORK EXPERIENCE

Front-End Developer Intern **Jul 2025 – Present**
Technova

- Built 15+ reusable UI components shared across 2 React applications, reducing duplicated UI code and speeding up development.
- Integrated REST APIs into both React applications, handling data fetching, loading, and error states.
- Collaborated in a 4-member development team using Git and GitHub.

React & Vue.js Instructor (Part-time) **Jun 2025 – Present**
Time Door Academy

- Taught 150+ students across 10 training courses in React.js and Vue.js, along with HTML, CSS, JavaScript, and Tailwind CSS.
- Mentored students to complete 10+ real-world projects, from page structure to CRUD features and protected routes.
- Built a complete SaaS dashboard as the course reference project, showing students the full scope of what they will build.

Front-End Developer Intern **Jan 2025 – Jun 2025**
ProTech Agency

- Delivered 20+ responsive pages for client projects, including a dental clinic website.
- Improved page load speed by 40% and fixed 30+ front-end bugs, enhancing performance and user experience.
- Converted UI/UX designs into functional, pixel-accurate web pages.

PROJECTS

Travel App – Trip Booking Platform GitHub
React 18 · TypeScript · Vite · Tailwind CSS · shadcn/ui · TanStack Query · React Router · Laravel REST API

- Built a 17+ screen booking platform with search, filters, sorting, seat booking, favorites, ratings, and comments.
- Integrated a Laravel REST API with token-based authentication and role-based protected routes for users and admins.
- Created an admin dashboard to manage trips (CRUD), users, bookings, and comments.

SWB Dashboard – SaaS Management Platform
React 19 · React Router v7 · Tailwind CSS · Context API

- Built a responsive landing page and a protected dashboard with full CRUD for tasks and projects.
- Implemented login/register flow, statistics overview, form validation, loading and error states, and modal dialogs.

Connexa – Social Media Web App GitHub
JavaScript (ES6+) · Axios · Bootstrap 5 · REST API

- Consumed a live REST API with Bearer-token auth, profile image upload, and image posts via FormData.
- Implemented an infinite-scroll feed with API pagination and a post details page with comments.

Other projects: Amazon Clone (React.js) · Mobile Products CRUD App (JavaScript, LocalStorage) · Quiz App (JavaScript) · Student Task Manager (JavaScript) · Prayer Times App (JavaScript, public API)

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Vue.js, React Router, TanStack React Query, Context API, Tailwind CSS, Bootstrap, shadcn/ui, Framer Motion, Axios
Tools & Platforms: Git, GitHub, Vite, Firebase, REST APIs
Concepts: Responsive Web Design, Authentication & Authorization, CRUD Operations, UI/UX Implementation, Performance Optimization
Soft Skills: Teaching & Mentoring, Communication, Teamwork, Problem Solving, Time Management, Fast Learner

EDUCATION

Bachelor's Degree in Information Technology **2020 – 2025**
Cordoba Private University

LANGUAGES

Arabic – Native
English – Professional working proficiency
